

Company Registration & Approval

Registration sets company to pending. Admin manually reviews documents and overrides license status.

Proposed Future

Marketplace Listing Flow

Listing moves to 'closed' upon offer acceptance. Manual cancel only if no accepted offers. No auto-expiry for listings.

Proposed Future

Offers & Deals Flow

Offers remain pending until seller accepts. Acceptance creates an 'active' deal and rejects all competing offers.

Proposed Future

Deal Lifecycle (Core Flow)

Immediate completion on receipt. Expiry jobs run on timeouts (e.g. 31 days from active). Admin can override.

Proposed Future

Operational Contracts

Draft to Active contract flow. Policy selection is immutable after creation. Linked to future shipments.

Proposed Future

Shipments & Weights

Shipments are tied to Active Contracts. Explicit Close action freezes values based on Contract policy.

Proposed Future

Reports (Deals & Shipments)

Deals export fetches completed/cancelled. Shipments export fetches based on closed_at.

Proposed Future

Admin Operations & Lookups

Admin controls exist natively in UI. Master Data (Categories/Units) lacks a UI endpoint currently.
